Subject: Docs for assumption brief

Hi, John.

There are a lot of attachments they are in order. We have discussed them all and you indicated an interest in being more inclusive rather than less. Pick and choose at will. For the ESA issues, Kathy included 2... we should do either or. Sounds like AA still 100% open to background reading materials... Just wants things a lot tighter on what's covered during discussion.

From my quick re-glance through, we still need to get rid of abbreviations (such as RHA, TNW, etc.) or at least spell them out the first time... but we're close.

For the discussion guide, which I think will be the main focal point, the one place I really want your read is the last section on state specific issues. Not sure how much to include there.

We're getting there...

Thanks,
Cathy
